

Christina and I would like to say how impressed we have been with both the products and service we received from St Giles Furniture.

Toby took our ideas for bedroom furniture, enhanced them and designed bespoke beds and matching accessories for what were awkward rooms to find standard furniture for. The oak furniture for the master bedroom is simply stunning whilst Francesca loves her bed so much she disappears way before bed time so that she can spend time enjoying her bedroom!

Your team, who installed the furniture, were extremely courteous and, mindful of the fact that we had just completed a major build and refurbishment of the top floor of the house, and installed the furniture with no damage to the decoration. They are truly a credit to St Giles Furniture. I only wish more companies would employ quality staff that adds to the whole experience as per the St Giles Furniture team.

Next year we plan to replace the kitchen and dining room and Toby has already given us a lot of good ideas to play with. We very much look forward to the next order being placed with you.

Thanks to the whole team.

Simon & Chris Earle
